ABOUT CCC

CCC officially accredited by GAC according to ISO/IEC 17065:2012 and approved by SASO as notified body for issuing PCoCs and SCoCs, the certificates required for customs clearance in Saudi Arabia. All certifications are processed through the SABER electronic platform to guarantee that your products meet Saudi and international standards.

With our accreditation and expertise, CCC makes the certification process faster and easier, ensuring your products comply with Saudi and international standards while protecting consumers and the market from unsafe or non-compliant goods.

In addition, certificates are issued following professional testing from accredited laboratories before a product is placed on the market or released for shipping. This confirms compliance with the relevant international standards, ensuring the protection of health, safety, and the environment from substandard imported goods. All certifications are processed through the SABER electronic platform.

Our Experts

“At CCC, our specialists provide end-to-end support, ensuring your products meet all regulatory and conformity requirements with solutions tailored to your needs.”

CCC VISION & MISSION

Our Vision

- CCC aims to build a strong service by delivering to clients a professional service that is always fair, efficient, helpful, and responsive
- Support the fast-growing economy of the region and comprehend the demand of the market for consumer goods that deliver satisfactory performance, and reliability
- Establish partnerships that foster development in the community.

Our Mission

- Providing innovative certification services in compliance with legislation and regulations in certain periods.
- Compliance with all standards, technical regulations, and requirements established by federal, state, and international sources, as well as adherence to agreed bilateral and multilateral commitments concerning conformity assessment.
- Enhance market share by establishing a reputation in the field of expertise and by promoting projects.

WHY CHOOSE US?

1- Authorized and Experienced Partner

Compass Certification Center (CCC) is an officially recognized service provider supporting companies with product registration and certification under the SABER Platform. Our team has extensive experience with SASO requirements and Saudi conformity procedures, ensuring smooth, compliant, and timely approvals.

2- End-to-End SABER Assistance

CCC manage the entire SABER process from product registration and technical file review to obtaining the Product Certificate of Conformity (PCoC) and Shipment Certificate of Conformity (SCoC) saving you time and reducing errors.

3- Fast and Reliable Servicee

Our CCC specialists ensure that your documentation and testing meet SASO standards the first time, helping you avoid costly delays in customs clearance or market entry.

4- Expert Guidance and Compliance Support

CCC stay up to date with the latest Saudi technical regulations, Gulf standards, and SASO updates, offering professional guidance tailored to your specific product category and business needs.

5-Customer-Centric Approach

At Compass, we value transparency, efficiency, and personalized support. We act as your trusted partner, not just a service provider ensuring your products meet all regulatory requirements with minimal hassle.

CCC SERVICES

The Saudi Standards, Metrology and Quality Organization (SASO) requires importers to obtain certification for both products and shipments through the SABER platform. This process ensures that all imported goods comply with Saudi Arabia's safety, quality, and regulatory standards. Certification is necessary to protect consumers, enhance product reliability, and facilitate smoother customs clearance

CCC INTEGRATED SERVICES- COMPLIANCE SUPPORT

In addition to SABER and MOIAT certifications, Compass Certification Center (CCC) offers a wide range of product conformity and compliance services, including:

- **Montaji Registration:** Assistance with product registration through Dubai Municipality's Montaji system to ensure compliance with UAE safety and consumer health regulations. At Compass Certification Center (CCC), we assist clients with every step of the Montaji registration process, including:
 - Preparing and submitting the required documentation and technical files
 - Coordinating product testing through approved laboratories
 - Managing communication with Dubai Municipality for approvals and renewals through the montaji platform.
 - Ensuring products comply with UAE and Gulf regulations for consumer safety and labeling

- **Tyre Fuel Efficiency & Labelling:** CCC provide complete support in obtaining tyre fuel efficiency and performance labels, ensuring your products comply with UAE and GCC energy efficiency, safety, and environmental standards for smooth market approval and customer confidence.
- **Water Rationalization Consumption (WRC) for SASO:** The Water Rationalization Consumption (WRC) is a mandatory program regulated by the Saudi Standards, Metrology and Quality Organization (SASO). It ensures that water-consuming products meet Saudi water efficiency and performance standards, promoting conservation and sustainability in the Kingdom. WRC applies to products such as faucets, taps, showers, toilets, washing machines, and dishwashers. To sell or import these items into Saudi Arabia, manufacturers and importers must obtain a WRC certificate through an approved Conformity Assessment Body (CAB), such as Compass Certification Center (CCC).

At Compass Certification Center (CCC), we work closely with trusted and accredited partners to make your SABER and MOIAT certification process faster, simpler, and fully compliant. Through our collaborative network, we deliver approval solutions tailored to your business needs.

WHY

CLIENTS NEED SABER CERTIFICATION

SABER certification is mandatory for entering the Saudi market, ensuring your products meet SASO standards, clear customs smoothly, and gain market credibility while minimizing compliance risks.

CCC is a trusted Conformity Assessment Body helping manufacturers, importers and exporters to ensure full compliance with the SASO Technical Regulation for Product certification. CCC simplify the process of SABER certification, testing, and audits, enabling smooth entry into the Saudi market.

- **Market Access:** Products cannot be cleared at Saudi customs without SASO certification uploaded through the Saber platform.
- **Consumer Safety & Compliance:** Ensures all the products are safe for use, environmentally friendly, and aligned with Saudi Vision 2030 sustainability goals.
- **Avoid Penalties & Delays:** Proper certification reduces the risk of shipments being rejected, delayed, or fined.
- **Trust & Reputation:** SASO-certified products are recognized as compliant and reliable, boosting trust with Saudi distributors and customers.

CERTIFICATE VALIDITY

- PCOC: 1 YEAR
- SCOC: EVERY SHIPMENT
- FACTORY AUDIT: 1 YEAR

WHY

CLIENTS NEED MOIAT CERTIFICATION

The MOIAT certificate is an official document issued by the Ministry of Industry and Advanced Technology (UAE).

MOIAT certification is essential for manufacturers, importers, and exporters to ensure their products comply with UAE standards, gain market access, build credibility, and avoid regulatory penalties or shipment delays.

HOW TO GET IT

- Submit product documentation and technical files to MOIAT through an authorized Conformity Assessment Body.
- Complete required testing, inspection, and audits.
- Receive the certificate confirming compliance.

BENEFITS

- Legal clearance to sell in the UAE.
- Faster customs processing.
- Builds trust with distributors and customers.
- Minimizes risk of fines, recalls, or shipment rejection.
